

YOU ARE INVITED TO ATTEND

GRAFT SELECTION STRATEGY

VIRTUAL WORKSHOP 2020

HOSTED BY ANTHONY NOLAN, NHSBT, WBMDR AND GUEST SPEAKERS

ON ZOOM

WEDNESDAY
18 NOVEMBER
2020

9.30am to 3.30pm

DONOR SELECTION STRATEGY

As the only workshop entirely dedicated to discussing unrelated donor selection, this event is the perfect place to engage with the transplant community, explore the expanding field of stem cell donor selection, and share knowledge and experiences around finding the best donor today and in the future.

HIGHLIGHTS

The virtual event will feature a compelling agenda, including:

- **Scientific and operational talks** from UK and international experts
- **Case studies** of real donor selection decisions
- Thought-provoking **panel discussions** with leaders in the field of HSCT

This is also your opportunity to hear about new processes that require planning for and discuss topics that are impacting your day-to-day work. Each session will feature interactive elements, including Q&As with the speakers and live polling during the case studies to vote on key decision points.

OPEN TO

Anyone from the UK HCT transplant community at any level, including H&I and Stem Cell Lab scientists, BMT Coordinators, CNSs and Transplant Clinicians involved in unrelated donor and cord blood unit selection processes.

TICKETS

Whole day virtual workshop held on Zoom
£30 (inc VAT) per person.

All delegates will be sent joining instructions.

The programme will include scheduled breaks to get away from your screen.

Deadline for registration is **Friday 6 November 2020**

CPD Accredited event and points awarded.
